Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 17 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Bright or sunny intervals, but scattered heavy showers developing.

Today:
After a cloudy start, it should brighten up through the morning, but with the odd shower by midday. These becoming more frequent and locally heavy and thundery during the afternoon, especially in the east. Maximum temperature 15 deg C (59 deg F).

Tonight:
Showers gradually easing overnight, with just the odd one left towards the east coast by morning. A few mist or fog patches possible by dawn especially on the hills. Minimum temperature 5 deg C (41 deg F).

Tuesday:
Some bright or sunny spells developing, but with scattered showers across the region in the afternoon. Shower lighter and less frequent than on Monday and dying out in the evening. Maximum temperature 16 deg C (61 deg F).

Outlook for Wednesday to Friday:
Sunshine and scattered showers on Wednesday. Thursday starting dry and bright, but wind and rain spreading from the west later. Windy on Friday with showers or longer spells of rain.
